The Maryland DC Wireless Association's Tenth Annual Golf Tournament took place on September 20, 2018 at the Whiskey Creek Golf Club in Ijamsville, Maryland. It brought together members of the association, as well as friends, colleagues and community members for a relaxing day of golf in support of various worthy charities. Miller, Miller & Canby was a sponsor of this year's event which raised \$50,000 for charity.

Miller, Miller & Canby's Sean Hughes serves on the board for the Maryland DC Wireless Association and, along with other board members, is involved in testifying and providing key insight for policymakers concerning wireless legislative issues and amendments on the local, state and even federal level, as well as raising funds for charitable causes through events like its annual golf event. Sean played in a foursome with Bob Gough, MM&C Managing Partner and Real Estate Attorney, and two firm clients. Cathy Borten, MM&C Real Estate Attorney, volunteered at the golf tournament.

Each board member is able to direct a portion of the proceeds to a local charitable organization. Miller, Miller & Canby have directed their \$5,000 portion to be shared equally to **Ride Allegheny** and **Hopecam**. Ride Allegheny is a 310 mile bike ride benefiting **Operation Second Chance**, which supports Veterans and their families' immediate financial and emotional needs and interests. **Hopecam** is a local charity that helps kids with cancer overcome the social isolation of cancer treatment by connecting with their friends and classmates through technology.

**Sean Hughes** is a telecommunications attorney in Miller, Miller & Canby's Land Use practice group. His career spans more than two decades of focus in legal and wireless telecommunications. **Cathy Borten** is an associate in Miller, Miller & Canby's real estate practice group. She focuses in commercial real estate transactions and leasing, real estate litigation, and commercial financings and settlements.
